

It is our true belief that finding the right solutions to your business' mission makes doing business less challenging.

IFAS

Business and Finance Operations

IFAS uses a cross-functional initiative involving the radical redesign of business processes to bring about simultaneous changes in culture, structure, and information technology that produces dramatic performance improvements in areas such as Customer service, Quality, and Cost. Basically, IFAS takes a clean-slate approach, pushing aside all of the notions of procedures are performed now and looking at how work can best be designed for optimal performance at a cost savings. IFAS derives its experience from the following expertise areas to improve Business and Finance operations for its clients:

Business Operations	Finance Operations
Strategic Planning	Financial Data Analysis and Reporting
Policy Review	A-123, Internal Control Monitoring
Business Process Reengineering	Contract Monitoring/Acquisition Support
Process Improvement Implementation	Grant Writing/Review/Closeout
Knowledge Management	Procurement Tracking
Customer Relation Management	Program, Planning, Budget, Execution
