

It is our true belief that finding the right solutions to your business' mission makes doing business less challenging.

IFAS

Program Management

Whether one or multiple projects, IFAS' Program Management solutions help you to centralize project visibility, establish leadership, manage risk, coordinate resources, monitor progress, and increase success rates. Integrated Finance and Accounting Solutions is not just our name it is the overarching philosophy that we incorporate in our program support analysis for every engagement.

PROFESSIONAL EXPERIENCED STAFF

IFAS maintains a corporate commitment to attract and retain high quality personnel. By growing our company one employee at a time recruiting the best and the brightest is vital to our continued success. We strive to provide a well-trained work force for every engagement. Our management philosophy starts with a front-end analysis to determine the level of effort, number of personnel, training, and logistics support required for each engagement. IFAS has the skills to deliver your project on time and on budget.
